We care about data

 **actiLib**

actiLib Library 8U:

The actiLib 8U Library is designed for medium to large businesses, workgroups or remote offices. actiLib Libraries provide the high performance you need in a condensed physical size that conserves rack and desktop space inside crowded data centers. The 8U's larger form-factor increases the total amount of cartridges that can be stored whereas the use of up to four tape drives allows the operation in heterogeneous environments with differing speed and capacity requirements.

Product Highlights:

- **Save valuable rack spaces**

Get up to 153,6 TB of compressed capacity (2:1) in an 8U form factor.

- **Choose equipment to best suit your needs**

Select from a range of capacities, interface and tape drives.

- **Simplify media handling**

Manage media both in and out of the library with a standard barcode reader and 8 12-slot removable magazines.

- **Protect your investment**

As your data protection needs increase, simply add performance or capacity with tool-free, next generation upgrades for your tape drives.

Easy Maintenance

- In the event of component failure, the power supply, library controller card, tape drives and robot can be replaced on-site without having to remove the library from the rack. Down-time is greatly minimised by this service-friendly layout.

actiLib Library 8U

The 8U's high slot count and flexibility of operations enable it to be deployed in environments that previously demanded mid-range Libraries. Operational parameters like the magazines, on-site replaceable components and hot-swap tape drives are of great benefit to reliability and smooth data protection. Providing centralized backup in a single automated device, freeing valuable IT resources for more strategic work.

	LTO-4 Full Height	LTO-4 Half Height
General		
number of drives	4	4
Max Performance	1.TB/hr	2.3 TB/hr
Interface	SCSI / Fibre Channel (FC)	Serial Attached SCSI (SAS) / SCSI / Fibre Channel (FC)
Capacity native/compressed is	76.8 TB/153.6 TB	
No. of Slots Available	96	
Form Factor	8U	
Reliability		
Robotics MCBF	2 Million load/unload cycles	
Access and Operation		
Remote Management (Web)	Yes	Yes
WORM (write once read many)	Yes	Yes
Hardware Encryption	Yes	Yes
Environments		
Temperature (Operating)	10°C - 35°C (50F - 95F)	
Temperature (Non-operating)	-30°C - 60°C (-22F - 140F)	
Relative Humidity (Operating)	20 - 80% (non-condensing)	
Relative Humidity (Non-operating)	20 - 80% (non-condensing)	
Accessories		
Included		
Dimensions		
Width	48 cm	
Depth	80 cm	
Height	35 cm	
Weight (no tapes)	42 kg (without drive)
